

Mike Jakuszewski

Software Engineer | Toronto, Ontario

SUMMARY

Creative and detail-oriented software engineer with a passion for AI and a deep interest in all things tech. Demonstrated ability to collaborate effectively with team members and develop successful front-end and back-end web applications. Seeking an opportunity to contribute to a company, creating a meaningful impact on their technology team.

WORK EXPERIENCE

Software Engineer

100Devs

March 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices.
- Created full stack web applications and static websites for different clients across small and medium size businesses.
- Built semantically structured full stack web applications.
- Applied Agile methodologies like SCRUM for project management.

Recent Projects:

FadeWorks Barbershop (HTML, CSS, JavaScript) – Managed end-to-end development lifecycle, encompassing design, implementation, testing, and deployment. Leveraged HTML, CSS, and JavaScript to craft a visually appealing and responsive website across various devices. Introduced a streamlined booking system, empowering customers to effortlessly schedule appointments online.

Happy Notes (Full Stack Web App) – Log in, access a personalized profile, and manage notes with ease. Add, edit, and delete notes effortlessly. Stay organized and boost productivity.

Part Time Fitness (Full Stack Web App) – Empowering users to optimize their fitness journey, this platform allows seamless login and instant access to a comprehensive workout history. Through a user-friendly input field, users effortlessly add, edit, and delete workouts within their profile. Experience the convenience of tracking your fitness routine, managing your strength, and gaining valuable insights.

Together (Full Stack Web App) – Part of development team that utilized Agile methodologies in creating a Discord event driven organization tool for a community of 40,000 members.

Other Projects: Great Lakes Virtual Casino, Ontario StarGazers Society - Web App with NASA API integration, On-demand background color changer for partnered Twitch streamer, and many more.

Technical Recruiter/Account Manager

TEKsystems Canada Inc.

June 2021 – August 2022

- Developed recruiting strategies to identify qualified candidates by using various networking tools.
- Evaluated the strengths and weaknesses of candidates through screening methods.
- Business development and lead generation.
- Utilizing and understanding client resource management for human capital deployment strategies.

Brock University

2012 – 2017

Bachelor of Accounting

Full Stack Web Developer

Jakuszewski Consulting

March 2020 — Present

- Developed full stack web applications and static websites for small and medium-sized businesses at Mike's Consulting.
- Collaborated closely with clients to gather requirements, understand their business needs, and translate them into effective technical solutions.
- Advised clients on social media strategies to enhance their digital presence and engagement with their target audience.
- Ensured timely project delivery and maintained effective communication throughout the development process to exceed client expectations.

Private Banking Officer

Bank of Montreal

July 2020 — June 2021

- Manage, advise, and cultivate relationships with ultra-high net worth clients, offering professional support and guidance to meet their financial needs.
- Collaborate with partners to identify key business opportunities, actively seek new clients, and leverage referrals to expand and secure new business.
- Provide comprehensive management and guidance on banking and investment strategies, catering to both business and personal objectives.
- Ensure adherence to compliance standards, including KYC (Know Your Customer), bank policies, and security procedures to mitigate fraud, counterfeiting, and money laundering risks.
